

One Nation Under God

2012

August, 2012

Fight for Religious Freedom in America!

Doing our part. As born again believers in

Jesus Christ, we must get involved. The problems America has been facing, especially since 2008, will not just go away. If we don't get involved, they will escalate and speed the demise of our once great nation into oblivion. We will become like all those empires in the past that disintegrated from within, as they rejected The Only One True Almighty God, whose Name is Yahweh and His Son Jesus Christ, the Messiah of the world. We may not be able to reverse the demise of America, but we can delay its complete destruction by pushing back the direction from which we are going. We must stand for God and His righteousness and witness the Gospel of Jesus Christ to the lost. Christians must also vote out and put in leaders who share our values in obeying God. The body of believers (the church) can no longer afford to do nothing. We have given up way too much ground to people with godless

ideologies throughout the years, and especially in the very recent past.

How You Can Get Involved. Pray for repentance and revival in America. Repent for your sins and pray that we repent as a nation for our sins. Implore God to forgive us for the things we have done that have caused Him to withdraw His blessings from us. Pray for Him to have mercy on us and renew our hearts. Pray for God to stir a hunger in the American people for the Lord Jesus Christ, that we would seek Him with all of our hearts. "Lord give us a hunger for You and Your righteousness. Lead us into Your everlasting ways, O Lord. Forgive us for the sins of greed, idolatry, lust,

fornication, homosexuality, and the murder of unborn babies." Pray that there would be such a move of God in the hearts of the American people that we as a nation would turn from our wicked ways and turn to Him. Perhaps He will heal our land and withhold judgment like He did with Nineveh in Jonah's time. Convince your pastor and church that passivity will not get the job done. We must educate ourselves on the issues, the structure of our government, the Constitution, and the politics of our times. The church, as a body of believers must vote their conscience and not for candidates that promise them financial benefits, regardless of the color of their skin. You will probably get opposition, but don't give up trying to appeal to your pastor the seriousness of this issue.

Read the United States Constitution and Declaration of Independence.

This is critical to your fight for freedom. Know your rights and re-acquaint yourself with the history of our nation. The Founding Fathers birthed a nation like no other, one whom God has used to spread the Gospel of Jesus Christ to the world like never before. Our Founding Fathers were amazing men. They definitely had Divine help in drafting these laws for governing our nation. God inspired their efforts because they loved and honored Him. They knew that God would bless a nation built on His Word. I challenge you to read the Constitution and understand it so you will be ready to defend it. I wonder how many Americans today go about their lives without realizing the rights they have been granted by our Constitution. Don't let yourself be lulled into believing the lies the Liberals tell you about the Constitution. Just look at how far our country has fallen as we have drifted away from the original one our Founding Fathers crafted.

Attend prayer meetings and political rallies for revival in America, such as "The Response" and "The Tea Party".

In August 2011, I attended The Response in Houston, Texas. Governor Rick Perry led Believers from many different denominations together in

prayer, imploring God to have mercy on us. It was a wonderful thing to see so many believers join in prayer for America. The corporate gathering of many people focused on the same issue is powerful. The Tea Party runs on such a platform and is very passionate about their God given freedoms. I also attended a Tea Party rally for Ted Cruz in August of this year, who went on to defeat the establishment Republican politician Dewhurst. The synergy in the Tea Party is strong. This Party has a strong Christian influence which is reflected in their platform. I strongly urge you to go to one of these rallies, to take back America. These people love God and America, and standing for what you and I believe in. You won't be disappointed.

Become more aware of the current politicians and candidates for office. Where do they stand on issues, and what is their voting record in Congress?

Do your homework-don't vote ignorantly. You can get scorecards on every politician's voting record from groups like the Christian Coalition of America

and the Tea Party. We must stay informed. We cannot risk supporting and voting for candidates who will compromise or go the other way once they get in office. Remember..."We The People" are the ones who "hire" Congress and put these servants in office. We, as voters, bear the responsibility and consequences of putting men and woman in office that share our values and govern righteously. Study the candidates. Challenge them on controversial issues. Don't compromise by overlooking flaws in their political career or character. We cannot afford to put people in office that will continue to destroy this great nation of ours.

Vote for Godly leaders who will not compromise their beliefs.

Once you have thoroughly studied the candidates, vote only for those who have been consistent throughout their career. Don't vote for candidates who look good, and are smooth and

eloquent communicators. We have learned the hard way that promises and appearances can be very deceptive and dangerous. We have had such a president for the past four years and his policies have been disastrous for America. He promised "hope and change" and has delivered despair and socialism. We are coming up to the most important election in American history in November. We need a President and administration that listens to the voice of the voters, strictly follow the Constitution, respects and obeys Christian values.

Encourage Godly leaders by calling, emailing, and writing them.

Encourage your Godly lawmakers. Let them know you are

behind them. Praise them for doing the right thing by God and the American people. Their work is very draining and frustrating. Most of the time, they have to handle complaints by some disgruntled group that does not approve of their policies, even though they are good

polices. They need to hear from us. I do this all the time by writing emails. I also let them know when I am not pleased with their position on certain issues.

Hold current leaders accountable.

Call, email and write them your views on their actions. Let them know when you disapprove of their stance or their party's position on certain issues. Sometimes it takes all three forms; calling, emailing and writing to get the point across. Let them know that you will not vote for their re-election the next time if they continue to legislate poorly. They will listen to their constituents or they will not remain in office.

Support your chosen candidate

financially. Needless to say, this is not easy to do in our current economy, but I encourage you to make a small donation. It all adds up. These candidates need money to run for office.

Recently, I have seen under-funded candidates win because the people believed in them. This is great, but they still need campaign funds.

Stand with and support groups, organizations, and businesses that are Godly.

Don't ride the fence when it comes to this.

We have seen some pretty powerful demonstrations of this principal recently. J.C. Penney would not back down from promoting homosexuality and so called same sex marriage, so the people of America cast their disapproval with their wallets. J.C. Penney's sales and credit ratings have plummeted because mass numbers of Believers refuse to shop there. Similarly, on August 1, 2012 millions of supporters went to Chick-fil-A to eat, showing their appreciation for President and CEO, Dan Cathy, who took a stand and simply stated his belief that marriage is between one man and one woman. The homosexual community was outraged. Some cities even threatened to ban Chick-fil-A from operating there. I urge you to continue supporting these Godly organizations which are being persecuted today. This will send a strong message to the people who are doing all they can to silence and marginalize the Christian community. It will also make them think twice about openly standing for things that go against the people of this country.

Boycott groups, organizations, and businesses that are anti-God and Anti-America.

Don't support businesses that stand for immorality. These groups are aggressively at work to undermine and destroy this country from the inside out. The worst thing for believers to do is nothing. We must not think that taking action like this is ungodly or beneath us. Our Founding Fathers opposed the British Empire with many boycotts. This sends a powerful message to those that oppose our freedoms. It tells them we have had enough and will not tolerate this.

Do not be intimidated by anyone (groups or organizations) that threaten your God given basic freedoms.

Expect opposition when you are about the Lord's work.

Jesus told us we would have trouble and that we would suffer persecution. Many of the activist groups become vicious when you oppose them. We have the right to speak out. It's in our Constitution. They will threaten you with lawsuits and imprisonment. Be prepared to suffer when you stand for righteousness sake. The radical liberals want to silence Christians. There have actually been cases where believers were ordered to pay fines for not caving into these people and their organizations. For example, a couple who owns a photography business in New Mexico was ordered to pay \$70,000 to two homosexuals because they would not photograph their "commitment ceremony." This is the world we live in folks. Don't let them intimidate you.

Use the internet and multimedia to connect with and share vital information on fighting for freedom in America.

Share resources and information with fellow believers on witnessing to the lost and taking back America.

Use every format available in your fight for freedom in America. There is no excuse not to do so. The more connected we are in this, the stronger we will be in winning back our freedom. These are very desperate times, my friend. Unless we band together in fighting to preserve this great nation, we will go under. YouTube, Face Book, Twitter,

 <http://www> Tumblr, Linked In, and so many other ways are available to us so we can communicate with one another.

The people working hard to take away our freedoms are using these methods with great success. We can use them for good instead of evil. Let us not forget....we are commissioned to share the Gospel of Jesus Christ to a dying world. This comes before politics. Souls will be gained or lost for eternity once this life is over. One main reason we fight for our freedom in America is so we can freely reach the lost here for Christ. Share your resources with other believers on witnessing and taking back America. The more united we are, the

more powerful and useful we will be in the hands of our God.

Support Israel. God blesses those nations who bless Israel and curses those who curse her. (Genesis 12:3) This is a known fact, and has been demonstrated over and over. America was blessed because we were a Godly nation and we stood with Israel. Have you noticed that God's judgments on the U.S. have increased since 2008? He has lifted the blessings from us for two reasons. First of all, we have abandoned His Word, and have chosen to run after other "gods". The stench of immorality has reached His nostrils. The abortions and sexual immorality have accelerated in the world and America. Secondly, we have pulled away from whole heartedly supporting Israel. In fact, we have cursed her by supporting known terrorist organizations and countries that want complete annihilation of Israel. President Barack Obama, a Muslim himself, is hostile to Christians

and Israel. He has repeatedly rejected Israel by opposing her when she tried to defend herself. Be obedient and support Israel because this is God's desire. We are to love His people even though the majority of them don't believe Jesus Christ is the Son of God. Support Israel politically, financially, and prayerfully. Keep up with the affairs of Israel as the Arab world prepares to wage an all-out war against God's chosen people. Our Messiah tells us to "Pray for the peace of Jerusalem." This is not a suggestion...it is His command.
